No assurance can be given about whether the approvals can be obtained, and/or if so, the timing of same. Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural components). Additionally, measurements of rooms set forth on any floor plan are generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate, and all floor plans and development plans are subject to change. # VISIONARY ARCHITECTURE FOR A PREMIER GLOBAL CITY

As Miami has transformed into a truly global city in recent years, it has become a prime location for the development of a world-class residential skyscraper that will meet the expectations of clientele with sophisticated taste. Beyond a prominent location distinguished by unparalleled views and visibility, such a project demands an ambitious creative vision, one that will offer private ownership of an iconic piece of architecture. One Thousand Museum is a celebration of excellence and innovation. It is a bold physical statement about the essence of Miami through the eyes of Dame Zaha Hadid.

This prestigious residential tower appears as a continuous piece of contemporary sculpture from the podium to the crown. The contrast between the robust exoskeleton and the crystalline glazing of the glass façade beneath it is one defining characteristic. The other defining characteristic is the integrity with which form follows function. The tower's fluid curves reflect its internal organization as it rises more than 60 stories from the arrival podium to the amenity levels, the residential floors above, and finally to a dramatic double-height amenity space at the crown.

Shadows cast by the white exoskeleton on the recessed glass façade emphasize the interplay between the verticality of the tower and the horizontal lines of balconies. At the uppermost levels, where full-floor penthouses and the crown amenity space are located, a split at each corner of the tower reveals folded glass elements. In sunlight, reflections along the corner glazing give the appearance of finely cut jewels set precisely within the tower architecture.

THE CONTRAST BETWEEN THE SENSUOUS CURVES OF THE EXOSKELETON AND THE CRYSTALLINE GLAZING OF THE FAÇADE IS ONE OF THE DEFINING CHARACTERISTICS OF ONE THOUSAND MUSEUM. IT IS AN AUDACIOUS EXPRESSION OF ARCHITECTURAL INNOVATION AT THE CENTER OF THE MIAMI SKYLINE.

**MINUTES FROM SOUTH BEACH AND  
BRICKELL, MIAMI'S MOST PRESTIGIOUS  
NEW RESIDENTIAL ADDRESS**

Internationally acclaimed for its cutting-edge contemporary art scene, chic nightlife, tropical beaches, and year-round temperate weather, Miami has in recent years also become home to a number of the United States' most prestigious cultural institutions and most exciting entertainment venues. One Thousand Museum sits at the nexus of all of these desirable destinations just minutes from South Beach and the Brickell financial district. In coming years, the immediate neighborhood will continue to transform and become even more compelling as a result of over \$10 billion of investments in premier retail, hospitality, and entertainment developments nearby.

## UNPRECEDENTED AMENITIES, ELITE SERVICES

One Thousand Museum creates a six-star lifestyle within an exceptionally elegant private residential tower. Over 30,000 square feet of beautifully designed venues for swimming, sunning, socializing, fitness, and pampering cater to fewer than 100 residences, offering the luxury of abundant space. In the lobby, residents' needs are addressed by highly attentive staff, including a concierge and parking valet as well as specialized security personnel. Additional staff oversee the proper management of all amenities and attend to residents' requests within them.

## SIX STAR ARRIVAL EXPERIENCE

A dramatic porte cochère within the podium of One Thousand Museum offers privacy from the street and a grand sense of arrival in tune with the prestige of the tower. The parking valet and doorman attend to residents' cars and packages, and the concierge is available to address owners' requests. Private residences are accessed from the lobby via secure, high-speed elevators that feature destination-entry smart technology.

### CUSTOM SCENTING BY 12.29

Adding to the elegant contemporary ambience, all interior amenity spaces, including the lobby, Wellness & Spa levels, Aquatic Center, and Sky Lounge, are lightly perfumed with signature scents designed by 12.29 olfactory consultants. These subtle ambient scents are inspired by Zaha Hadid's architectural vision as well as the lifestyle in Miami's most prestigious new residential tower. Upon request, residences can be scented with one of these custom scents or a unique new scent can be created by 12.29.\*

\*Residential scenting is available at an additional fee.

## SCULPTURAL SUN & SWIM TERRACE

The roots of One Thousand Museum's distinctive exoskeleton surround residents with Zaha Hadid's visionary design and bring contemporary art into the personal sphere on the Sun & Swim Terrace. These sculptural extensions of the tower architecture create areas of light and shadow that move around organically shaped pools throughout the day.

## INDOOR-OUTDOOR WELLNESS & SPA LEVELS

Above the podium, the Wellness and Spa amenities occupy two full levels of light-filled space overlooking and opening onto the Sun & Swim Terrace. The spacious fitness center is outfitted with state-of-the-art strength and cardio training equipment. It also offers dedicated indoor areas for movement training and stretching as well as a landscaped outdoor area for other fitness activities. At the second level, the Spa has been designed with private rooms for massage and beauty treatments, steam and sauna rooms, plunge pools, and a relaxation lounge. The second level also offers a multimedia theater for private movie screenings, lectures, and presentations.

## LANDSCAPE DESIGN BY ENZO ENEA

One Thousand Museum's extensive Sun & Swim Terrace and the terraces surrounding the Wellness & Spa level feature elegant landscaping by renowned Swiss landscape architect Enzo Enea. Created as a series of outdoor rooms that reflect the curvilinear form of the tower architecture, the terraces offer beautifully articulated private spaces for relaxation and socializing.

## DOUBLE-HEIGHT AQUATIC CENTER & SKY LOUNGE

Within the crown of One Thousand Museum, the Aquatic Center offers an innovative infinity-edge indoor pool and the Sky Lounge provides a dramatic venue for private events. Zaha Hadid Architect's water drop pattern enhances the sculptural quality of arched interior walls throughout these spaces, and the double-height glass façade elevates the experience of spectacular panoramic views over Biscayne Bay, the Atlantic Ocean and the Miami skyline.

## PRIVATE ROOFTOP HELIPAD

One Thousand Museum has been designed to offer Miami's first private helipad on a residential tower, providing residents the convenience of arriving and departing securely on their own schedule. Pending FAA and other necessary approvals, the helipad will make nearby islands, private and commercial airports, and private yachts truly accessible at any time of the day or night.

# DESIGNED TO BE MIAMI'S MOST SECURE RESIDENTIAL TOWER

With a limited number of expansive residences, One Thousand Museum is uniquely positioned to offer a truly secure living environment. The building has been designed with a functionally integrated security program focused not just on residents, but also their guests and their personal property. A world-leading security consulting firm has worked closely with the development team to address matters ranging from the structure of the building itself to sophisticated surveillance systems and appropriate staffing by specialized security personnel. Particular attention has been paid to achieving a secure environment without compromising the elegant nature of the property. A bank-quality vault contains an individual safe deposit box for every residence, offering residents the convenience of storing their valuables onsite.

# A LIMITED COLLECTION OF EXTRAORDINARY RESIDENCES WITH MAGNIFICENT PRIVATE TERRACES

One Thousand Museum's residences magnify the experience of breathtaking Biscayne Bay and Atlantic Ocean views as well as dynamic views of the Miami skyline. Living rooms, bedrooms and entertainment spaces have all been designed with East-to-West flow-through floor plans to capture this mesmerizing panorama. Oversized terraces extend living spaces outward into the fresh air and tropical sunlight. Museum-quality interiors have been crafted with the finest finishes and features by an elite team of designers, including lighting artists and residential technology specialists.

BOLD AND SCULPTURAL,  
FORM FOLLOWS FUNCTION

The podium façade of One Thousand Museum is largely solid, concealing the parking garage and giving substance to a monumental porte cochère. As the tower rises, the exoskeleton becomes the singular element tracing the unique shapes of oversized terraces that create multiple outdoor rooms for every residence. The tower is composed of distinct residential zones: duplex townhomes at levels 10 to 14, half-floor residences from levels 15 to 49, full-floor penthouses from levels 50 to 57, and a duplex penthouse at levels 58 and 59.
